STATISTICAL ABSTRACT

OF

ANDHRA PRADESH

1959

PREFACE

The Statistical Abstract of Andhra Pradesh 1959 is the fourth issue in this series and is designed to serve as a reference book. It presents various types of quantitative data relating to the economic and social aspects of the State. Every effort has been made to include statistics according to the recommendations of the Eighth Joint Conference of the Central and State Statisticians. As usual, some All India Statistics have also been included at the end of the publication, to facilitate comparison of data for the State with data for the country as a whole.

It is hoped that the Abstract will prove useful not only to officials and scholars, but also to the public. Suggestions for any improvement of the publication are most welcome.
